*EVENT MONTHS ARE SUBJECT TO CHANGE OR CANCELLATION.*
Print media is not going anywhere. Advertisers can increase their clients’ revenue, gain consumers’ trust, attract visual learners and younger readers, and much more by investing in print. As a successful marketing venue, especially for companies seeking to reach a targeted audience, **PRINT ADVERTISING GIVES TANGIBILITY AND LONGEVITY AS WELL AS BRANDING AND CREDIBILITY.** Placing ads in printed publications, such as *Waste Advantage Magazine*, effectively reaches niche audiences that may be more difficult to target online.

FILE CREATION GUIDELINES:

Color:
- **CMYK**: All colors should be created in the cmyk format. Please make sure NO SPOT COLORS are in use in the document. Although we can convert spot colors to the CMYK format, it is considered best practice to convert them before creating the PDF file.

Rich Black Usage: Our recommended RICH BLACK BUILD IS C-60 M-40 Y-30 K-100. Only use this build for large, solid areas of black coverage. DO NOT use this build for body copy, thin lines, or small elements.

Bleeds for Full and Spread Ad Sizes: Allow 0.25 inch past the trim size for all full-page bleed ads. We need a minimum of 0.125" bleed, but prefer 0.25" bleed. If you send files with less than 0.25" bleed and there are elements close to trim, there is a risk of copy being cut off during the trimming process. ALL COPY, LOGOS, AND IMPORTANT INFORMATION SHOULD BE AT LEAST 0.5 INCH IN FROM TRIM. Bleeds are not needed for fractional ad pages.

Margins: We ask that you do not place anything important less than 0.25" from trim, especially type. TRIM IS THE TOP, BOTTOM, AND FACE OF THE PAGE. If type, images, and/or page numbers are within 0.25" of trim, it is possible for it to be cut off.

Ad Sizes: Sizes for all ads are noted in the charts above. Please make sure your ad is in the correct size prior to submission of your ad material.

Crop Marks: We ask for NO crop marks as trim boxes are defined within PDFs if they are exported from the Adobe products or Quark. If you want to include them, they MUST be offset 0.25" to ensure that they are outside of the bleed area.

Registration Color: NEVER use the color “Registration” that is in the Swatches palette. This is 100% of all colors and will not output correctly.

Auto Color: Files and page elements that have been imported from this color behaves like “Registration” color and will not output correctly.

Image Resolution: 300 dpi final size is recommended for images. Enlarging images will decrease the effective resolution while reducing images will increase the effective resolution. Images under 300 dpi can result in poor quality print with bitmap or grainy appearance. The quality of the original image will be a factor in how it will re-produce. Up-sampling images in Photoshop will not necessarily increase the quality.

Accepted Files: TIF, PDF, JPG
All fonts must be embedded and the file must be flattened. Ad files created in Word or Publisher will not be accepted.

AD SUBMISSION: Send ad files to heidi@wasteadvantagemag.com Files too large to e-mail, please contact the production department for instructions at (800) 358-2873, Ext. 8.
